

# FAROUK ADEDAMOLA EJALONIBU

SOFTWARE DEVELOPER

Lagos Nigeria | +2347067902081 | faroukadedamola1@gmail.com

---

## PROFESSIONAL SUMMARY

Results-driven Software Developer with 4+ years of experience crafting modern web applications using React, Next.js, and TypeScript. Demonstrated expertise in building scalable interfaces and optimizing application performance, achieving 40% reduction in server load and 35% faster page loads. Strong track record of collaborating with cross-functional teams to deliver high-quality solutions for complex business challenges.

---

## TECHNICAL AND SOFT SKILLS

- Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, Gatsby.js, HTML5, CSS3, SCSS.
  - State Management: Redux, Zustand, Recoil.
  - Backend: Express.js, Firebase, Strapi.
  - Version Control and Collaboration: Git, GitHub, GitLab, Azure Devops.
  - Tools & Methods: Agile, REST APIs, GraphQL
  - Strategic Planning
  - Critical Thinking
  - Time Management
  - Problem-solving
  - Team Collaboration
  - Communication
- 

## KEY ACHIEVEMENTS

- Composed fragments and grouped multiple queries into single requests, reducing server load by 40% and improving application responsiveness by 30%.
  - Applied best practices to refactor multiple modules of web applications, resolving technical debt and increasing code maintainability by 50%. Additionally, optimized site performance by improving load times, achieving a 35% reduction in page latency.
  - Developed mobile-first and responsive user interfaces, addressing cross-device compatibility issues and improving user retention rates by 25%.
  - Implemented technical SEO best practices, such as optimizing metadata, reducing JavaScript render-blocking, and ensuring fast page speeds, resulting in a 45% increase in organic traffic.
-

## WORK EXPERIENCE

### Frontend Developer

January 2025 – Present

#### Serve Consulting | Lagos, Nigeria | Remote

- Collaborated with the development team to build a multi-tenant enterprise logistics platform for major oil companies including 11PLC and Ardova, managing operations from order processing to delivery.
- Developed web applications using React with state management, creating role-based interfaces for administrators, customers, transporters, and logistics managers.
- Built cross-platform mobile applications using React Native for real-time order tracking and fleet management operations.
- Integrated Google Maps API for route optimization, vehicle tracking, and delivery scheduling features.
- Implemented Firebase authentication and real-time database solutions with secure multi-tenant architecture and role-based access control.
- Enhanced application performance through optimization techniques, achieving 40% faster load times across web and mobile platforms.

**Key Technologies:** React.js, JavaScript, Typescript, Tailwind CSS

---

### Frontend Engineer

June 2023 – May 2025

#### Local-Coders Westernwells | Abuja, Nigeria | Remote

- Spearheaded the development of user interfaces for various projects, including birth management system, scientific research assistance site, business development portals and administrative dashboards.
- Integrated APIs for critical user functionalities such as registration, KYC processes, and financial transactions.
- Enhanced API efficiency by introducing optimized queries using GraphQL, reducing server response time by 40%.
- Refactored project modules using clean architecture principles, ensuring scalability and maintainability.
- Led performance optimizations across projects, achieving up to 35% faster page load times.
- Delivered high-quality, reusable code adhering to Google JavaScript best practices.

**Key Technologies:** React.js, Next.js, Gatsby.js, JavaScript, Typescript, Tailwind CSS

---

### Frontend Engineer Intern

June 2022 – December 2022

#### Lanatus Systems | India | Remote

- Designed and implemented React components, transforming static designs into interactive user interfaces.

- Collaborated in brainstorming sessions to propose innovative design techniques and solutions.
- Refactored legacy React class components into functional components, improving performance and readability.
- Documented the codebase for better developer onboarding and clarity in future development.

**Key Technologies:** React.js, Axios, SCSS, styles-components

---

**Software Developer Intern**  
**Terra HQ | Remote**

*January 2022 – June 2022*

Worked collaboratively within a team to develop web applications using vanilla Javascript.

- Built interactive front-end components, integrating APIs to support backend operations.
- Participated in Agile sprints to deliver key project milestones on time.

**Key Technologies:** HTML, CSS, JavaScript

---

---

## EDUCATION

**University of Abuja | Abuja, Nigeria**  
**Bachelor of Science in Mathematics**

*2019 – 2023*

Graduated with *2nd Class Upper division*

CGPA: 3.86.
